

Empower your people

with the knowledge they need to maximize the value of your Outpost24 solution

Security technologies are evolving fast, so your skill set must keep pace. From introductory to advanced courses, our training experts equip you with the essential and hands-on knowledge required to maximize your skills, resources and the value of your Outpost24 solutions.

In addition to the knowledge gained, our trainings can be enhanced with certifications that validate your credential for security topics, and advance your career as a qualified security professional.

Types of training

Instructor led courses

All instructor-led courses are delivered online on a monthly basis

Certifications

Get certified to validate the skills and knowledge of your security team

Customized courses

Tailor the content of the training to meet the needs and goals of your company's unique requirements

Regardless of category, all courses are led by an Outpost24 Certified Trainer, and on a by-choice basis, you can choose to receive a certificate of attendance after each course
