

Credit Cards

Recover stolen credit card information
in real-time

Business trust depends on it

Recover stolen credit card information in real-time Business trust depends on it Dig deep enough and you can find all sorts of credit card data online. This module, especially helpful for organizations in the financial sector, can dramatically reduce losses from theft and fraud of credit cards. Our unique and patented methodology retrieves stolen credit card data and provides necessary information to help organizations mitigate the damage.

What business benefits does it deliver?

- 1.** Reduce fraud and insurance costs, including indirect losses to the card issuer
- 2.** Protect your brand reputation and ensure you deliver a trustworthy customer experience
- 3.** Protect employees and end clients from fraud

What does it do?

- 1.** Provides real-time notifications for stolen credit cards
- 2.** Provides information around compromised PoS devices, the most common source of compromise
- 3.** Provides automated dashboards including relevant, actionable trend information
